

**HARASHINA et al**  
**Serial No. 10/655,034**  
October 31, 2005

### **REMARKS**

The amendments presented above are submitted to supplement the applicants' responsive amendment dated October 19, 2005 and follow a most helpful interview with Examiner Szekely on October 25, 2005.

As was discussed during that interview, applicants are now amending independent claim 32 so as to define the vehicle motor parts as described on page 30, line 23 through page 31, line 5 of the originally filed specification. Amended claim 32 and all claims dependent thereon are thus believed to be allowable over the applied references of record, especially the applied Shinohara et al reference, as no disclosure or suggestion exists therein of the specific polyacetal resin being employed as a motor vehicle part as now defined by the pending claims herein.

All substantive issues appear to now be resolved in this application. As such, early receipt of the Official Allowance Notice is solicited.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
